

Forums are an opportunity for corrosion professionals to discuss information that is relevant to the industry but does not require a technical paper. The topic and information must be technically accurate and must be relevant to NACE's mission. NACE is seeking Forums for individuals with varying levels of experience including beginner, intermediate, and advanced topics.

The Call for Forums submissions are due on Monday, May 28, 2018.

Forum Organizer (First Name and Last Name):

Company:*

Position:*

Email Address:*

Phone Number:*

Check this box if you will also be speaking during the session.

Speaker 1 (First Name and Last Name):*

Phone Number:*

*If you have more than 3 speakers for this forum, please contact forums@nace.org.

Forum Duration (maximum of 4 hours— NACE will make every effort to grant requested time frames but cannot be guaranteed):

Please indicate the experience level required for an attendee to benefit from this topic—

Beginner: someone just entering into the corrosion field. May have limited knowledge of corrosion and the industries it impacts.

Moderate: someone who has been in the industry a few years but would benefit from enhanced understanding of subjects related to corrosion.

Advanced: someone who has extensive knowledge of corrosion but wants to learn new developments.

Forum Format—

Case Studies

Roundtable Discussions

Panel Discussions

Hands-on Demonstration of Tools and Instruments

Other

If you selected format "Other," please describe the forum format:

If you selected format "Hands-on," please describe the process and materials requirement:

Audio/Visual Needs

The room will contain a lectern, podium microphone, data projector, and wireless mouse/pointer. Speakers are required to provide their own laptop computers to run their presentation. Laptop computers must have a VGA connection or appropriate adapter to connect to the data projector. If you have any additional a/v needs, please explain your need in the following textbox and a NACE staff member will follow up with the Forum Organizer.

Forum Title:*

Forum Description (1-2 paragraphs—This description will be posted on the web site and in printed promotional materials. If you have any updates to your description for the final program, please notify NACE staff by December 3, 2018.):*

If your submission is not accepted as a Forum, would you be interested in presenting this topic in our Corrosive Chronicle Theater located in the Exhibit Hall? Yes No

Corrosive Chronicles are a great way to reach audiences in the exhibit hall. They feature technical presentations in two semiprivate theaters on the exhibit hall floor. Each theater can accommodate an audience of 60 people and presentations can take place from 60 to 90 minutes.

Please indicate if the proposed topic is aligned with any STG or TEG committee. Yes No

If yes, please indicate which one:

The Call for Forums submissions are due on Monday, May 28, 2018. Notifications will be sent to the Forum Organizer the week of July 9, 2018. A NACE representative will contact the Forum Organizer of accepted Forums to discuss what equipment is required for their session and to determine the logistics of the event. The Forum Organizer will also be responsible to provide session information to NACE representatives including their descriptions and any other information requested to promote the session in advance of the CORROSION conference.

The Forum Organizer shall notify all speakers of their intended involvement in this session PRIOR to submitting the form. If any speaker is not notified of their participation in this session the topic may be excluded from consideration for the CORROSION program.

All presentations shall adhere to the style guidelines and presentation checklist provided by NACE. This document will be sent to Forum Organizers upon acceptance into the program.

NACE reserves the right to cancel any Forum at any time if the content is found to contain commercialism or is otherwise inappropriate in a manner that compromises the integrity of the CORROSION conference or NACE International.

By checking this box you are agreeing to the conditions outlined above and verify that the information you've submitted is correct.

How to Submit Your Application

To submit your application, please save your document and send it to: forums@nace.org
