MESSAGE

I am happy to learn that NACE International Gateway India Section (NIGIS) is organizing “CORCON 2017”, an International Corrosion Conference and Expo during 17 -20 September 2017 in Mumbai.

Ageing infrastructure is a rising challenge faced by world over that needs immediate attention and correction. CORCON 2017 jointly organized by NACE International, NACE Gateway India Section and NACE East Asia and Pacific Area is an excellent platform to unite the world and synergize the efforts to fight against corrosion and prevent undue material loss. I congratulate the CORCON 2017 organizers who have made a commendable effort to further raise the standards of global awareness and initiative for corrosion protection.

To ensure continued integrity of any system or structure at minimum cost corrosion has to be managed from the design stage itself. Thus it is very important that all stakeholders including technical experts, engineers, operators and customers should be sensitized. I am very sure that NACE Gateway India section is keeping that as the main objective of this conference. Further, the overall management system should be responsible for the development, implementation, review and maintenance of corrosion policy. I am very happy to know that NIGIS is taking all the necessary steps to convince stake holders and policy makers including our Government.

I wish all the participants a very fruitful time at CORCON 2017 Conference and Exhibition. I am sure they will make the most of this excellent opportunity to meet professionals, exchange technical information and pursue useful projects and ideas.

I also take this opportunity to congratulate NIGIS for their great contributions in spreading corrosion awareness in the country.

I wish CORCON 2017 a great success!

(Indranil Manna)
